

2013 NAEP and Beyond

Ashley McGrath, NAEP State Coordinator

2014 Assessment Conference
Helena, January 15-17, 2013

GOALS

- Understand what NAEP is
- Why should we use NAEP?
- NAEP 2013 findings
- How can NAEP facilitate our shift to the MCCS?
- Use NAEP to focus questions and investigations
- Familiarize you with NAEP and state tools

What is NAEP?

Long Test, Short Booklet

- Each student gets a small part of the test
- No individual student scores

Common Block Structures Across Subjects

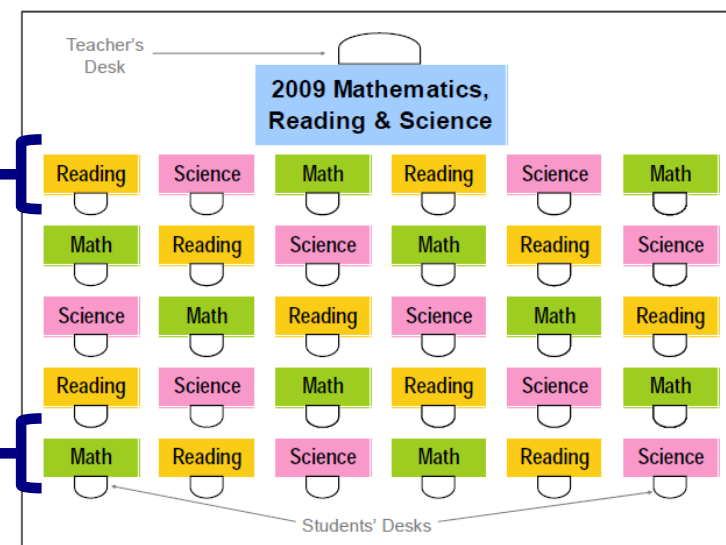

- **P/P: 1st Block 25 min.** **P/P: 2nd Block 25 min.** **BQ1 5 min.** **BQ2 5 min.**
- Takes no more than 90 minutes from start to finish (P/P)
- Items within blocks, blocks within booklets

Test Questions

- MC, SCR, ECR, and CBA

Contextual Items

- Student, teacher, administrator questionnaires

NAEP RESULTS

- The results of NAEP are released as ***The Nation's Report Card***. www.nationsreportcard.gov

- NAEP Results are reported in two formats
 - **Average Scale Scores**
 - Numeric scale
 - 0 – 500 on mathematics and reading assessments
 - Scores cannot be compared across content areas
 - If you can't do it in the NDE, then you probably shouldn't do it

 - **Achievement Levels**
 - Categorical scale
 - Below *Basic*, *Basic*, *Proficient*, *Advanced*

NAEP'S DEFINITION OF PROFICIENT

“NAEP’s definition of “proficient” is based on “challenging” material and is considered harder than grade-level standards” – Stephen Sawchuk

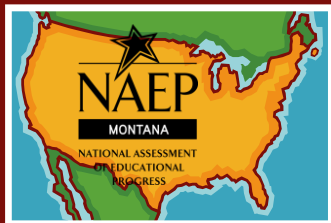

PROFICIENT- “represents an aspirational goal for what students should know and be able to do, while on most state tests, it describes the level of student performance that is good enough to be regarded as acceptable for a particular grade level” – Chudowsky 2010

Basic – “Partial mastery”

Proficient – “Solid academic performance”

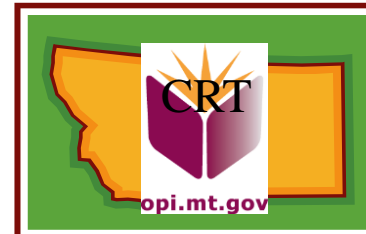

Advanced – “Superior performance”

These do not match Montana’s categories of “Novice,” “Nearing Proficiency,” “Proficient,” and “Advanced.”

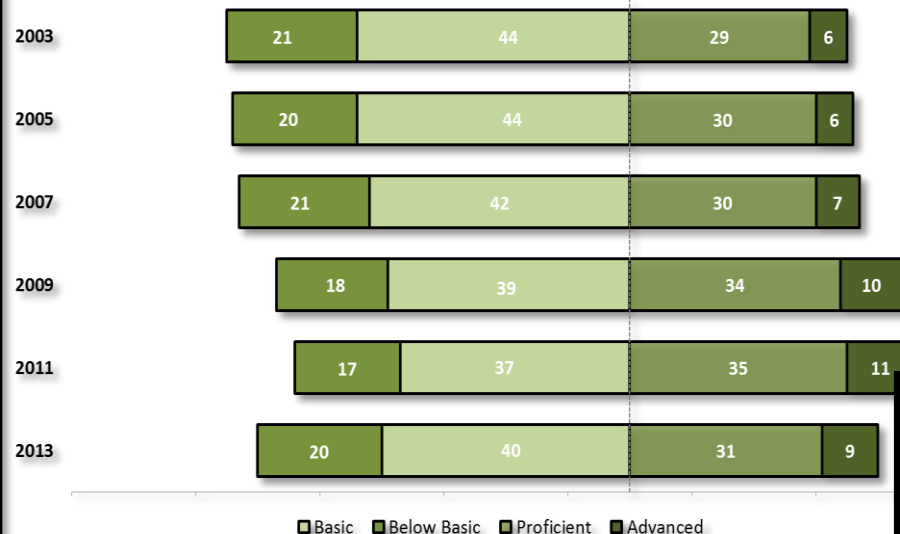

2013 GRADE 8 MATH

NOTE: Observed differences are not necessarily statistically significant.

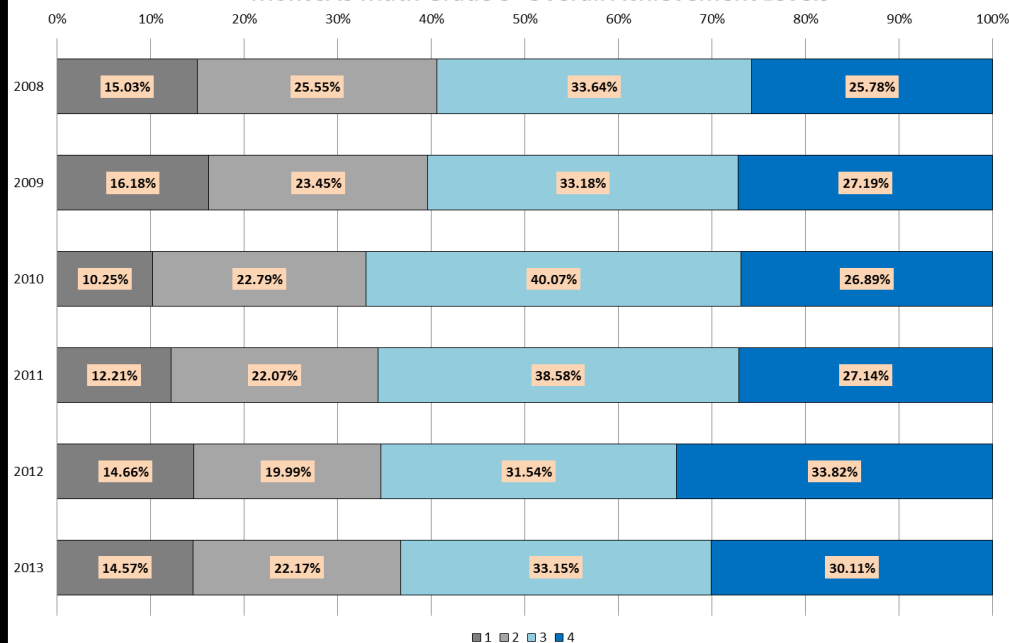

In Summary

NAEP Mathematics Grade 8 – Overall
Achievement Level Percentage

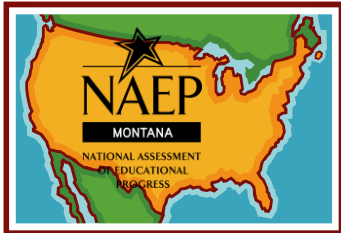

CRT		NAEP	
Year	At or Above Proficient	Year	At or Above Proficient
2007	59%	2007	44%
2008	59%		
2009	60%	2009	46%
2010	66%		
2011	65%	2011	45%
2012	65%		
2013	63%	2013	45%

MontCAS Math Grade 8- Overall Achievement Levels

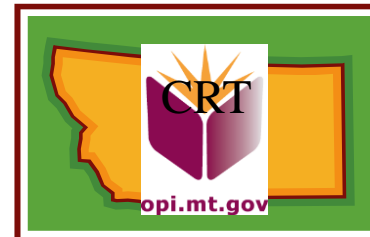

1. Novice
2. Nearing Proficiency
3. Proficient
4. Advanced

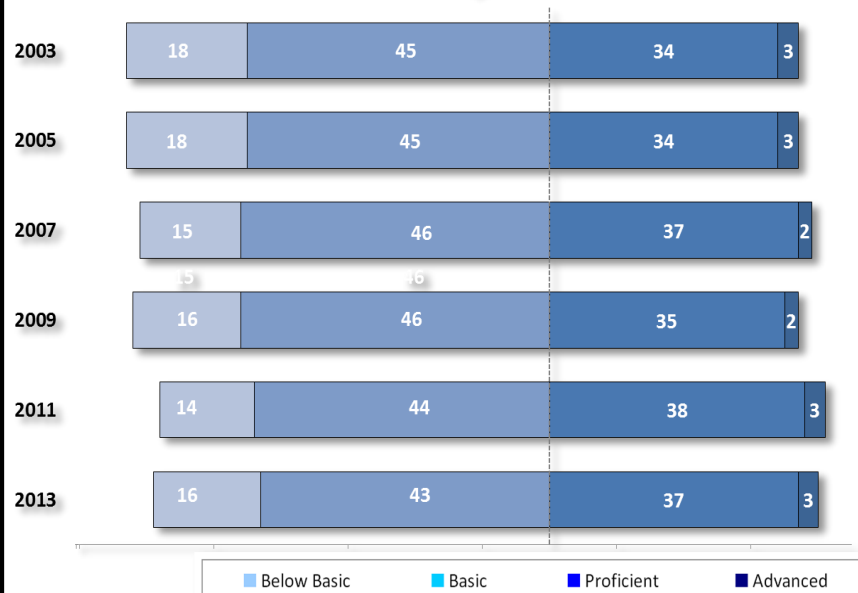

2013 GRADE 8 READING

NOTE: Observed differences are not necessarily statistically significant.

In Summary

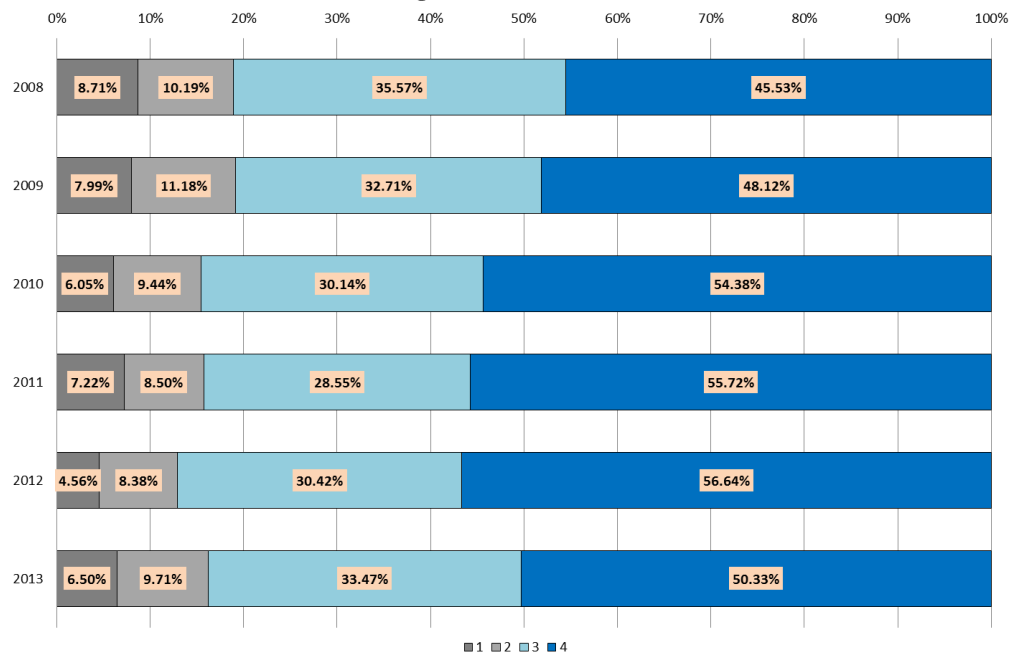

NAEP Reading Grade 8 – Overall
Achievement Level Percentage

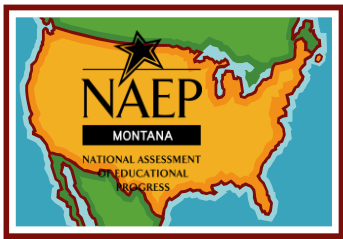

1. Novice
2. Nearing Proficiency
3. Proficient
4. Advanced

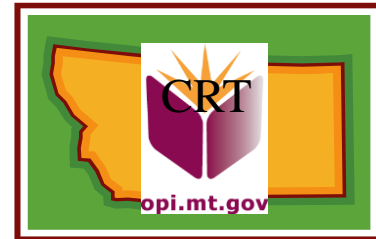

CRT		NAEP	
Year	At or Above Proficient	Year	At or Above Proficient
2008	81%		
2009	81%	2009	37%
2010	84%		
2011	84%	2011	41%
2012	87%		
2013	83%	2013	40%

MontCAS Reading Grade 8- Overall Achievement Levels

STATE PERSPECTIVE

Tests not directly comparable

- **CRT trend** (2006 to 2013);
 - 7 years of data (07, 08, 09, 10, 11, 12, 2013).
- **NAEP trend** (a decade) 2003 to 2013;
 - 6 years of data (03, 05, 07, 09, 11, 2013).
- Enough data to paint a picture of Montana progress.
- **Keep in mind:**
 - different test, different standards, different design, different aims, different students (sample).
- **CRT**
 - Reading and Math: Grades 3-8 and 10
 - Science: Grades 4, 8, and 10
- **Reporting differences:**
 - Percent At or Above Proficient vs average scale score reporting in CRT

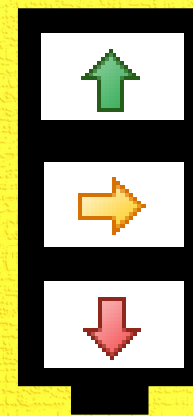

Theme repeated:

- Across the board down in all subjects and all grades

2013

RESULTS OVERVIEW

Math

- **Grade 4:** higher than the National Public by 3 points.
- **Grade 8:** down 4 points; biggest decrease observed in "town" schools (decreased 9 points)
- Students with disabilities (SD) scored 5 points higher; "rural" SD students increased by 9 points

Reading

- **Grade 4:** scored higher than the National Public by 2 points.
- **Grade 8:** scored higher than the National Public by 6 points. American Indian/Alaska Native student down 12 points.

TO THE MCCS?**

Item Analysis

NAEP AND THE CCSS

SOME EXPLORATION IDEAS

Math

- How did Montana students perform in NAEP on:
 - (1) Number properties and operations, (2) Measurement, (3) Geometry, (4) Data analysis and probability and (5) Algebra?
 - Does NAEP [Number properties and operations] agree with the expectations of MontCAS [Content Standard 2] and MCCS [Number and Operations in Base Ten/ Number]?

Reading

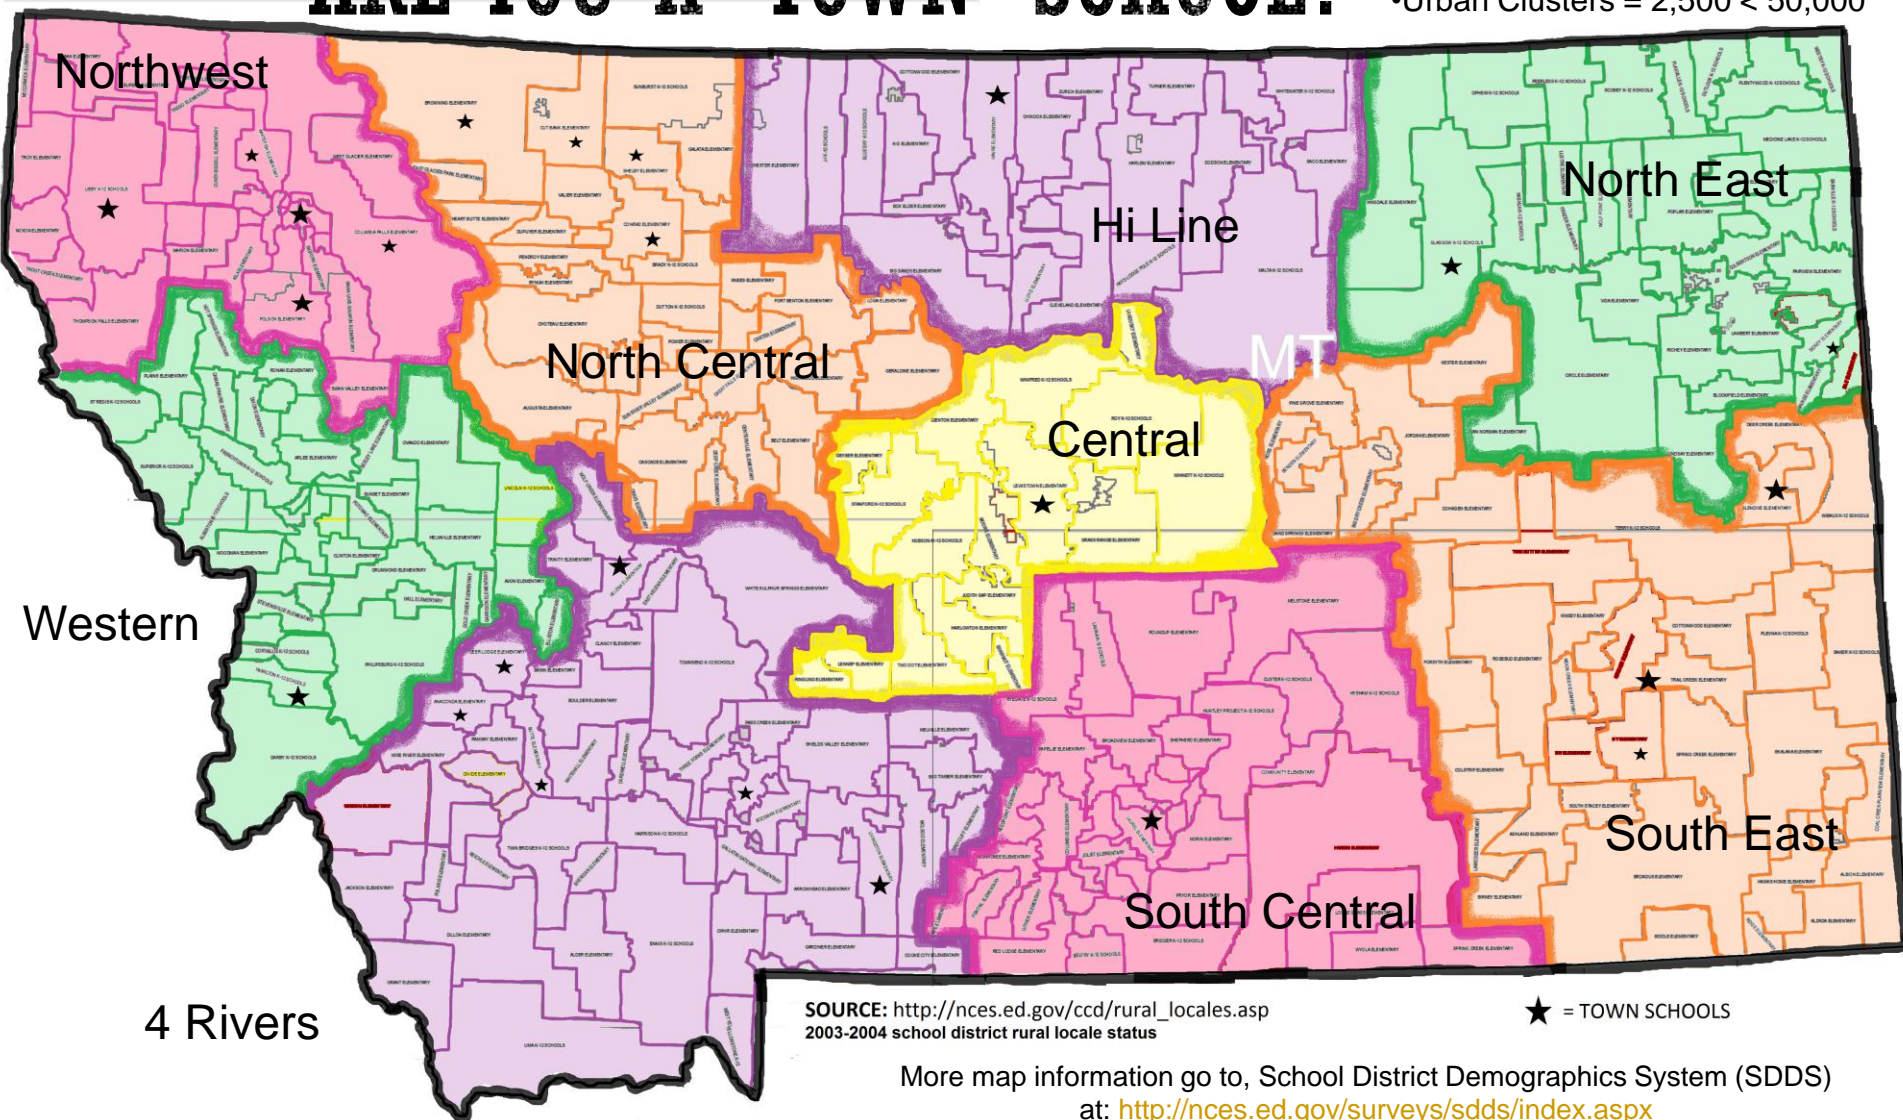

- How did Montana students perform on informational text items?
- How did Montana students perform in NAEP on :
 - (1) locate/recall, (2) integrate/interpret, and (3) critique/evaluate?
- Does the MontCAS DOK match NAEP's item difficulty? How do students perform on DOK 3 items?

Science

- How did Montana students perform in life science?
- How did Montana students perform in NAEP on :
 - (1) identifying science principles, (2) using science principles, (3) using scientific inquiry, and (4) using technological design?
- Does the MontCAS Content Standard 1 match NAEP's Using Scientific Inquiry?

ARE YOU A "TOWN" SCHOOL?

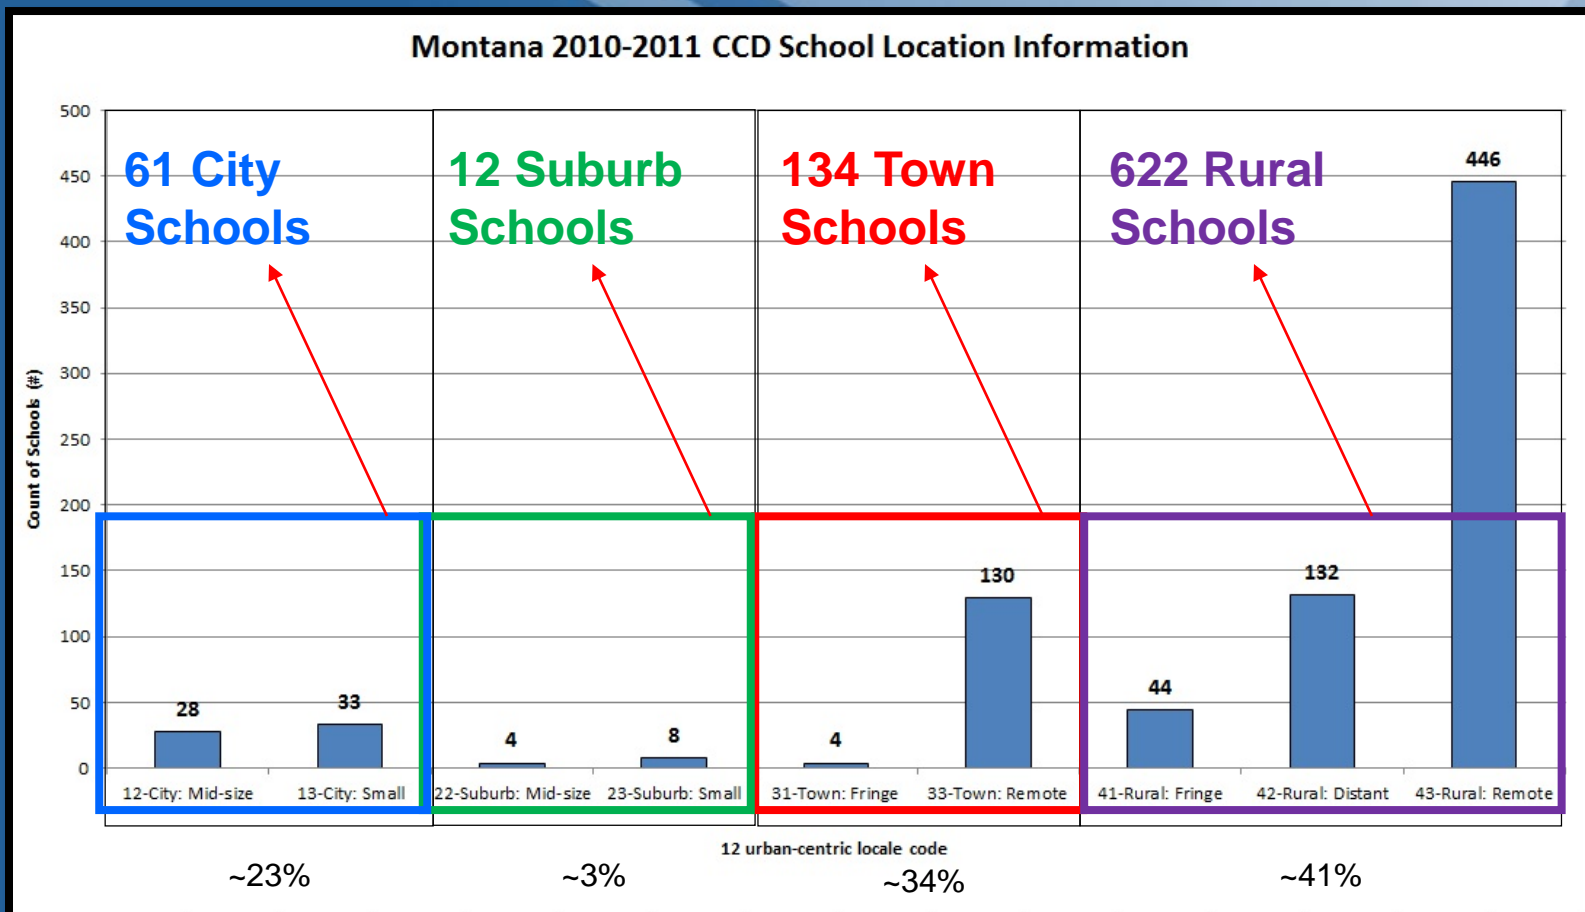

- Urbanized Areas = 50,000+
- Urban Clusters = 2,500 < 50,000

- City** (41, 12, 13)= urbanized area and inside a principal city with X (large, midsize, small) population
- Suburb** (21, 22, 23)= outside a principal city and inside an urbanized area with X (large, midsize, small) population
- Town** (31, 32, 33)= inside an urban cluster some distance from an urbanized area (fringe, distant, remote)
- Rural** (41,42, 43)= away from an urbanized area and away from an urban clustered (fringe, distant, remote)

TOOL #1 SCHOOL LOCATION REPORTING

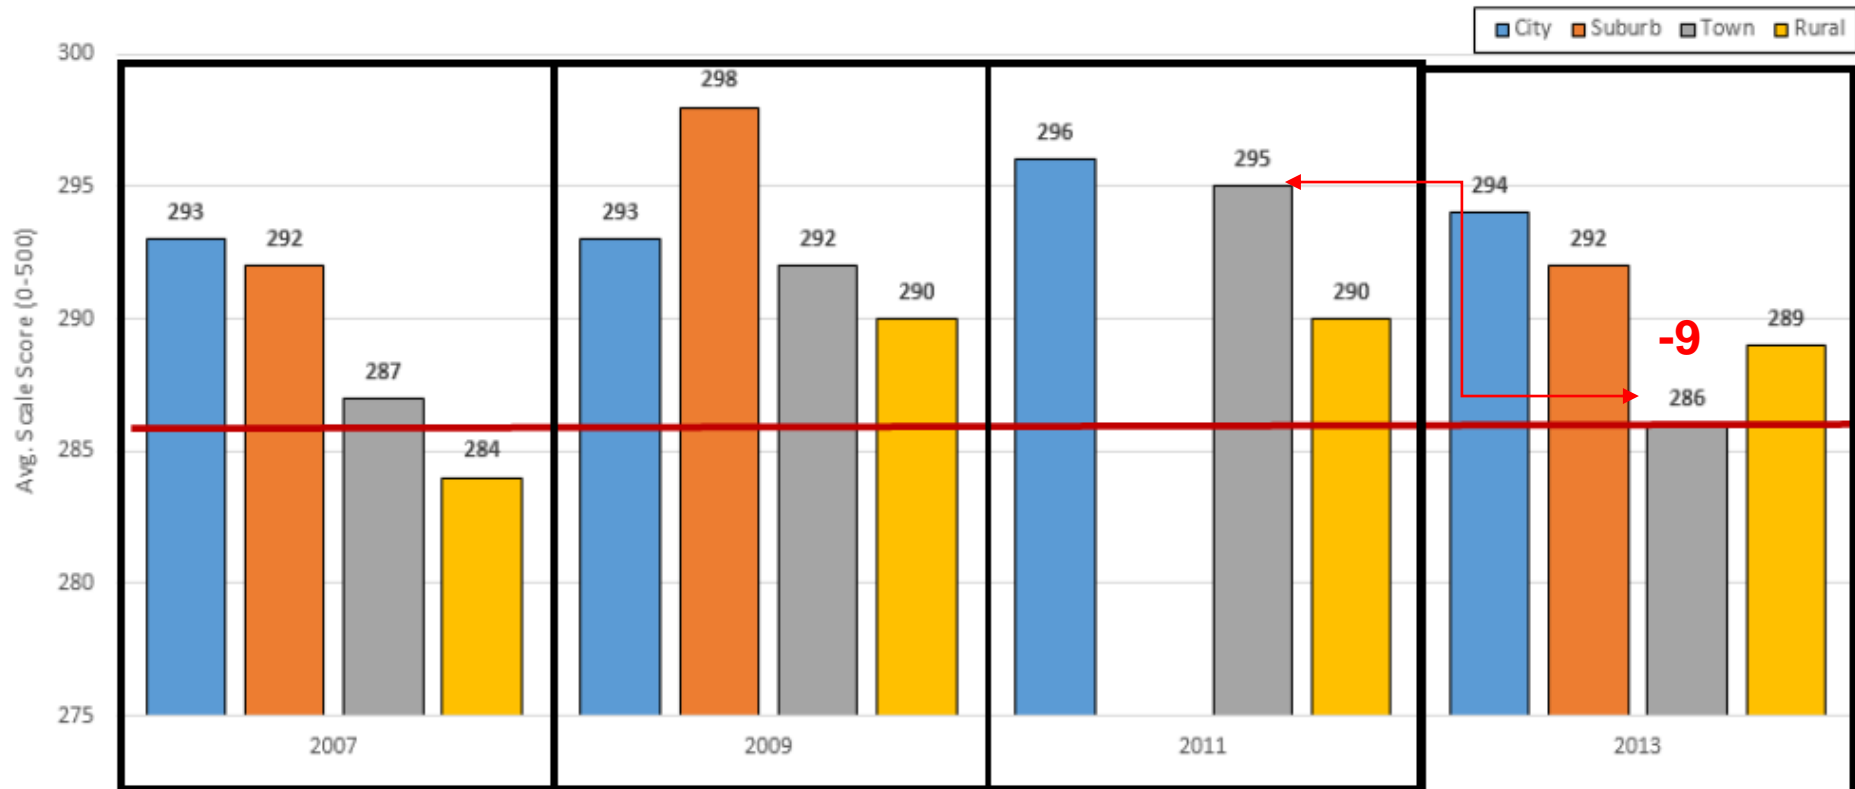

1. Go to : <http://opi.mt.gov/groups/montananaep/>
2. Click on: What does NAEP look like in your school?
3. Under “So how did we do on NAEP?” select the “**CCD 2010 to 2011 School Location Data.pdf**”
4. Find your school
5. Of the 134 town schools only 30 have sampled grade 8

Grade 8 - Montana TOWN Findings

- White (down 5 pts)
- Students who DO NOT have disabilities (non-SD down 10 pts)
- Students who ARE NOT eligible for Free/Reduced lunch (non-NSLP down 8 pts)

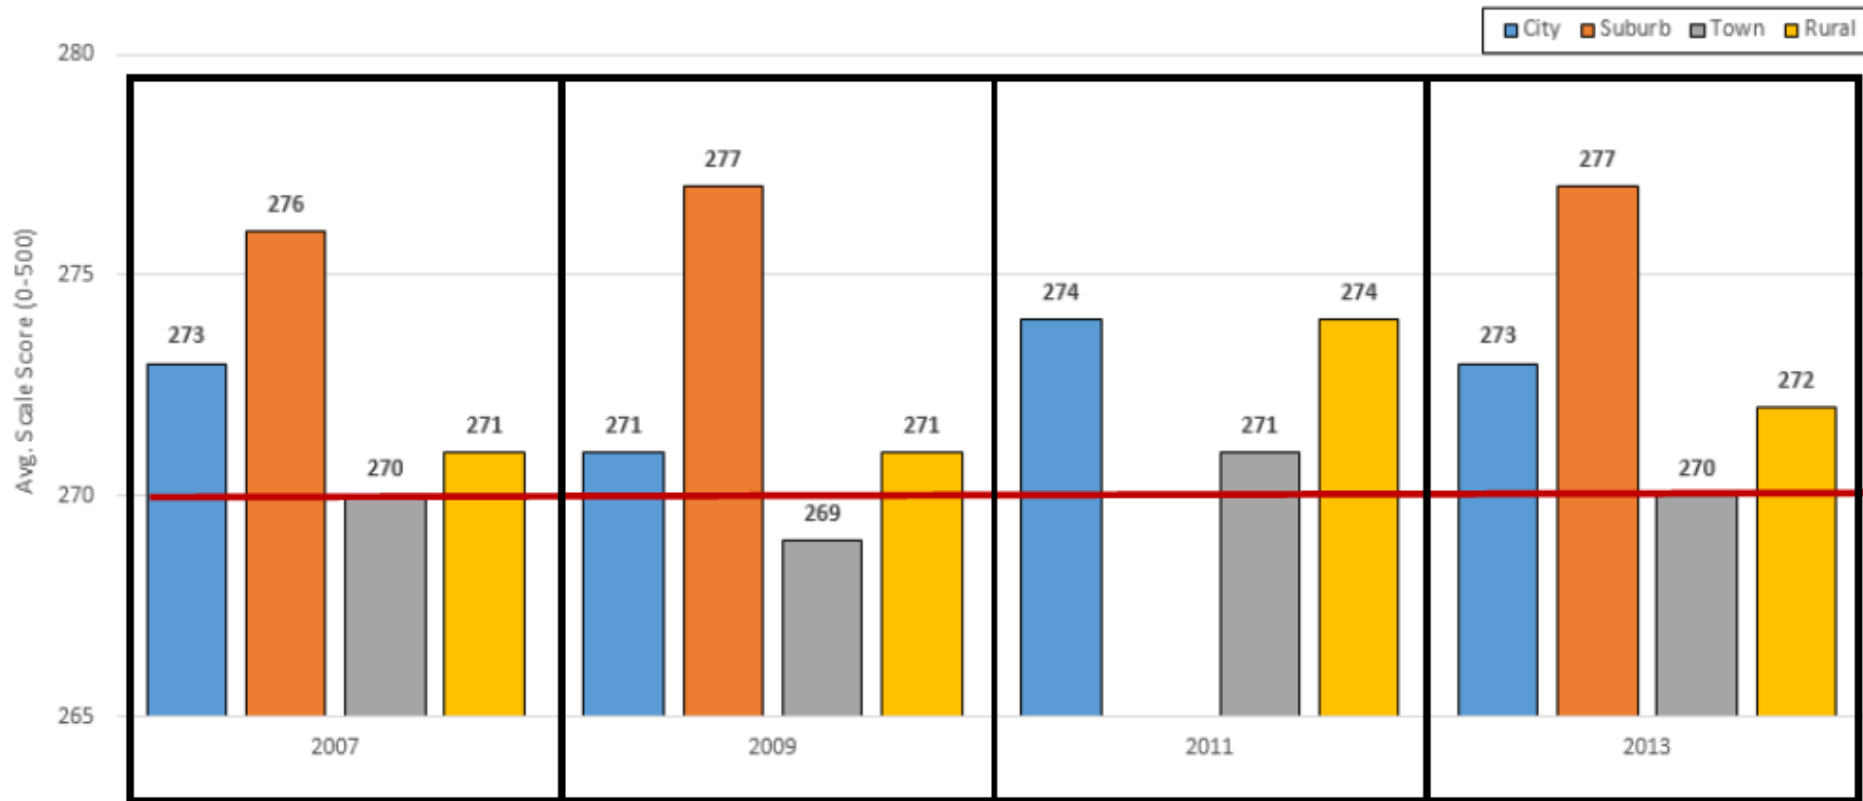

Montana Mathematics, Grade 8

Grade 8 - Montana TOWN Findings

- School location reporting only available for 2007 and beyond

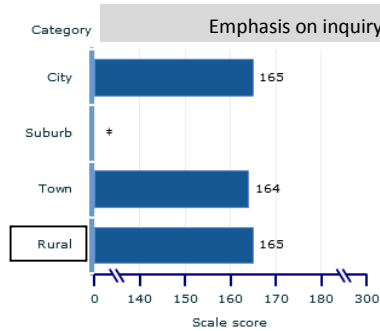

Montana Reading, Grade 8

- If no information is available, the reporting standards were not met (e.g., small size was not large enough)

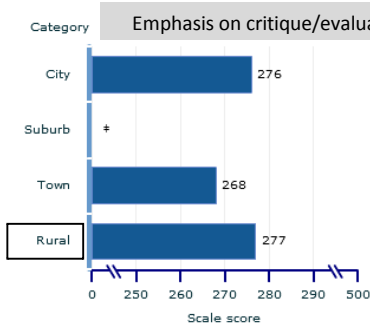

SCHOOL LOCATION REPORTING

Average scale scores for science, grade 8 by school location, 4 categories [UTOL4] for emphasis on inquiry skills [T113005], year and jurisdiction: 2011 2011, Montana, Large extent

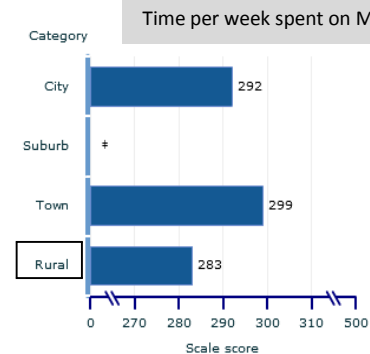

Science

Average scale scores for reading, grade 8 by school location, 4 categories [UTOL4] for emphasis on critique/evaluate when reading text [T100103], year and jurisdiction: 2011 2011, Montana, Large extent

Reading

Average scale scores for mathematics, grade 8 by school location, 4 categories [UTOL4] for time per week on math instruction [T088001], year and jurisdiction: 2011 2011, Montana, 5-6.9 hours

Math

NAEP IS AN INTEGRAL PART OF EDUCATION IN THE UNITED STATES.

- ⇒ **SCHOOL NAME** is 1 of XXX Montana "school location" schools. <http://nces.ed.gov/ccd/bat/>
- ⇒ NAEP provides a common measure of student achievement across the country.
- ⇒ Elected officials, policymakers, and educators all use NAEP resources and results to develop ways to improve education.
- ⇒ Teachers can use sample NAEP questions, scoring guides, and performance data as a resource for understanding student achievement.

Montana Characteristics:

Number enrolled: 141,693
 Number of school districts: 419
 Number of schools: 829
 Per-pupil expenditures: \$10,558
 Pupil/teacher ratio: 13.7

DATA SOURCE: Common Core of Data, 2010-2011 school year

SCHOOL NAME Characteristics:

Enrollment Count: _____
 Student/Teacher Ratio: _____
 Economically Disadvantaged Participation: _____
 Special Education Participation: _____

DATA SOURCE: GEMS, October 2012 Snapshot at <http://gems.opi.mt.gov/>.

School Mission Statement

PUT YOUR SCHOOL LOGO HERE

replace pictures

The **National Assessment of Educational Progress (NAEP)** is the largest nationally representative assessment of what our nation's students know and can do in subjects such as civics, geography, mathematics, reading, science, technology and engineering literacy, U.S. history, and writing. The results of NAEP are released as The Nation's Report Card. For NAEP releases, please visit : <http://www.nationsreportcard.gov/>

NAEP scores are always state and national specific scale scores. You can contribute by emphasizing how important NAEP is and by encouraging your students to do their very best. When students take part in NAEP and give their best effort, the U.S. Department of Education can receive the most accurate measure of what Montana students know and can do.

The table below shows **SCHOOL NAME's** participation history in NAEP since 2003.

Insert your participation

SCHOOL NAME's NAEP Participation History

	2003	2005	2007	2009	2011	2013
Participation in Grade 4 (Yes/	NO	YES	NO	YES	NO	NO
Participation in Grade 8 (Yes/	YES	YES	YES	YES	NO	NO
Participation in Grade 12	NO	NO	NO	NO	YES	YES

Nightlife of the Sugar Glider

by Robin Darcy Dennis

As night falls, a sugar glider prepares to leave her nest in a tree hollow. Her baby, on her back, rides along. It holds on tight—and for good reason. Sugar gliders have an unusual way of getting around. They glide, swooping from tree to tree in the woodlands of Australia. A loose grip could mean a long fall.

It's late in the afternoon. In a small hollow high in a eucalyptus tree, all is quiet. Six furry gray animals lie curled up fast asleep. The animals are a family of sugar gliders. Three adults and three babies share the leaf-lined nest. Each adult is only a bit larger than a chipmunk. During the day, the sugar gliders stay hidden in the tree hollow.

When the sun goes down, the scene changes. One, two, then three heads peek out from the entrance to the nest. The sugar gliders are about to put on a show few people see, since it takes place only at night.

Chattering and chirping, the adult gliders begin leaving the nest. Animals that minutes ago looked like balls of fur suddenly take on the appearance of kites or square parachutes. Spreading their front and rear legs, the sugar gliders sail from tree to tree. At each stop, they feed.

- How can NAEP facilitate our shift to the MCCS?
- Use NAEP to focus questions and investigations

COMMON CORE STATE STANDARDS & NAEP

Using NAEP Questions Tool

- **What:** NAEP questions that seem to have a close alignment with MCCS
- **Purpose:** Illustrate or suggest current levels of student achievement for MCCS
- **Limitation:** Not intended nor possible to make any predictions about how students will do on a SBAC

<p>NAEP Content Area: Number properties and operations Question: Identify correct number sentence (calculator available). 2003. Iowa CCSS classification: 3.OA.3; Alaska CCSS classification: 4.OA.1. & 4.OA.2.</p> <p>Sam placed cookies on a cookie sheet to form 2 rows with 6 cookies in each row. Which of the following number sentences best describes this situation?</p> <p>A. $2 \times 6 = \square$ B. $2 + 6 = \square$ C. $6 + 2 = \square$ D. $6 - 2 = \square$</p>	<p>National Data:</p>	<p>MT Data:</p> <p>85% correct Answer: A</p>
<p>NAEP Content Area: Number properties and operations Question: Write a multiplication number sentence. 2003. Iowa CCSS classification: 3.OA.1; Alaska CCSS classification: 4.OA.1. & 4.OA.2.</p> <p>Kim wants to give 7 stickers to each of her 5 friends. To find out how many stickers she needs, she writes the number sentence $7 + 7 + 7 + 7 + 7 = \square$. Write a number sentence with multiplication that she could use to find the number of stickers she needs.</p>	<p>National Data:</p>	<p>MT Data:</p> <p>69% correct</p>
<p>NAEP Content Area: Number properties and operations Question: Identify solution method that uses multiplication. 2003. Iowa CCSS classification: 4.OA.1. & 4.OA.2; Alaska CCSS classification: 4.OA.1. & 4.OA.2.</p> <p>Carla has 12 boxes that each weight the same amount. What would be a quick way for her to find the total weight of the 12 boxes?</p> <p>A. Add 12 to the weight of one of the boxes B. Subtract 12 from the weight of one of the boxes C. Divide the weight of one of the boxes by 12 D. Multiply the weight of one of the boxes by 12</p>	<p>National Data:</p>	<p>MT Data:</p> <p>57% correct Answer: D</p>
<p>NAEP Content Area: Number properties and operations Question: Identify a correct numerical expression to model a word problem (calculator available). 2003. Iowa CCSS classification: 3.OA.3; Alaska CCSS classification: 4.OA.1. & 4.OA.2.</p> <p>Pat has 3 fish bowls. There are 4 plants and 5 fish in each bowl. Which gives the total number of fish?</p> <p>A. $3 + 5$ B. 3×4 C. 3×5 D. $3 + 4 + 5$</p>	<p>National Data:</p>	<p>MT Data:</p> <p>60% correct Answer: C</p>

Has potential instructional implications for showing students' strengths and weaknesses in certain areas.

A map of the United States with a light purple background. Red arrows point from various states to a central text box. The arrows originate from Washington (WA), Oregon (OR), Montana (MT), North Dakota (ND), Minnesota (MN), Wisconsin (WI), Michigan (MI), Indiana (IN), Ohio (OH), Pennsylvania (PA), New York (NY), Vermont (VT), Maine (ME), and New Hampshire (NH). The text box is a white rectangle with a black border, containing the question "How did Montana compare to other SBAC states?" in bold black font.

How did Montana compare to other SBAC states?

A More Fine-Grained Look at the Data : The State Academic Performance and Improvement Tool:

- **Montana's NAEP growth over the past 10 years?**
- **Is Montana improving?**
- **How did Montana perform versus the states in 2013?**
- **What does the picture look like when student groups are considered?**

K-12 POLICY

UNEVEN AT THE START

Differences in State Track Records Foreshadow Challenges and Opportunities for Common Core

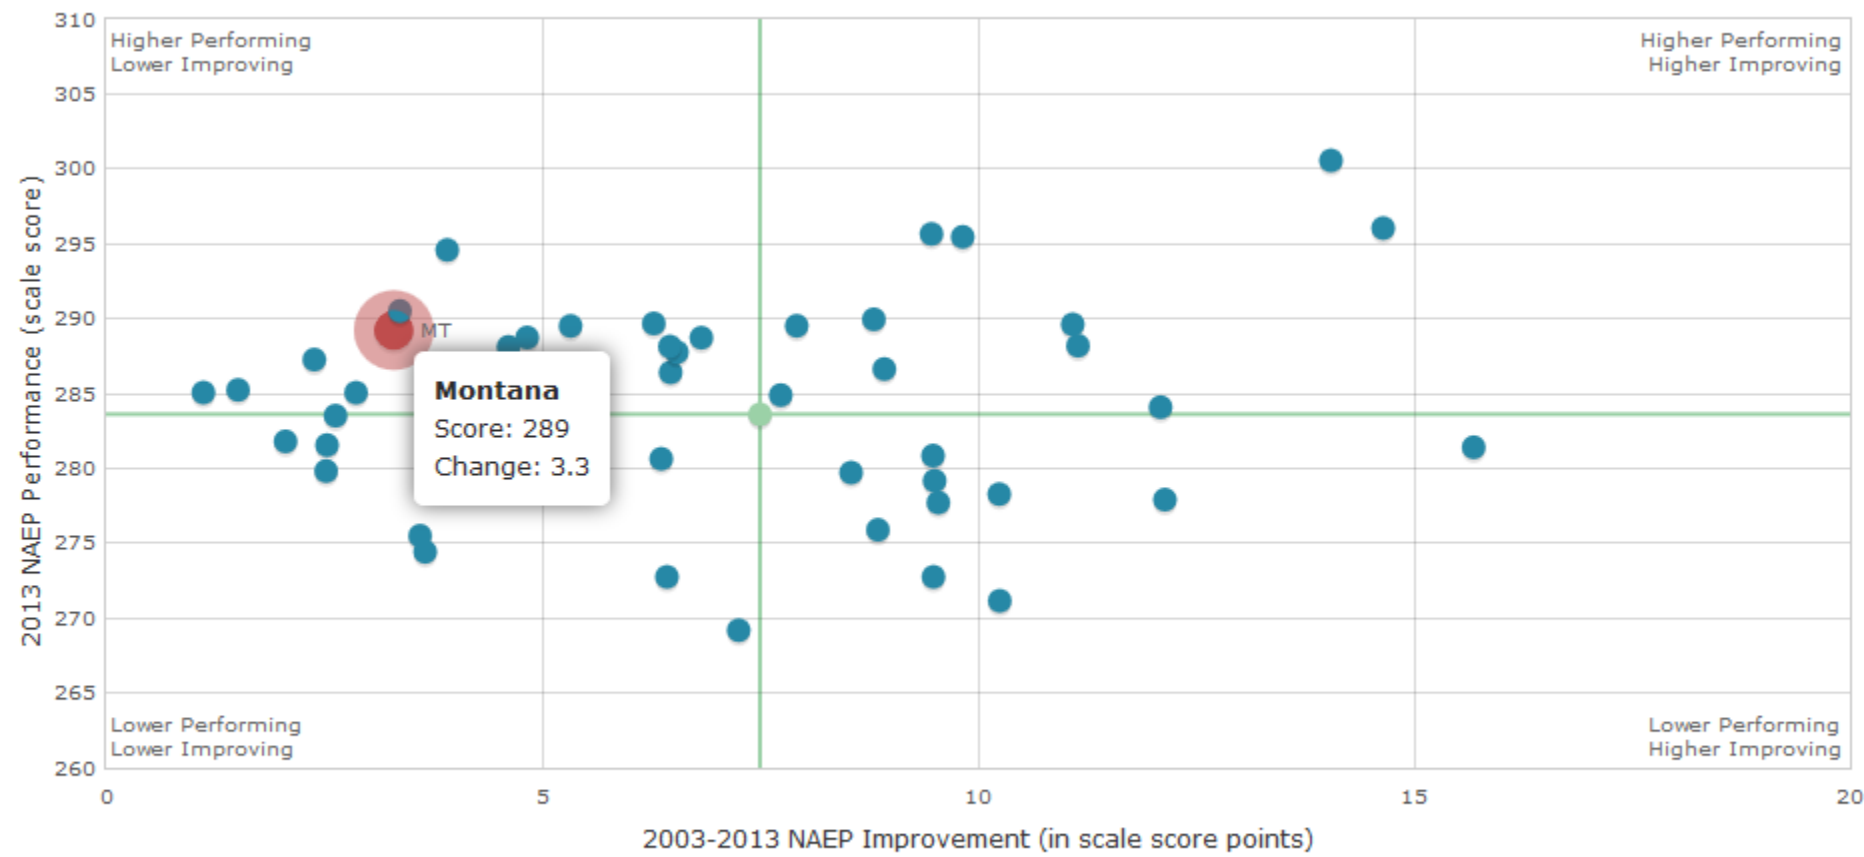

UNEVEN AT THE START-Differences in State Track Records Foreshadow Challenges and Opportunities for Common Core . July 2013.

Replication of the State Academic Performance and Improvement Tool, go to [www.edtrust.org/NAEP State Scores](http://www.edtrust.org/NAEP_State_Scores) (p. 17 of report)

8th Grade Math - All Students

The green lines represent national averages: the vertical green line represents the national average improvement, and the horizontal green line represents the average 2013 performance – for the subject, grade and group you chose. The focus state appears in red.

WE LOOK GREAT ON NAEP – IS THAT A PROBLEM?

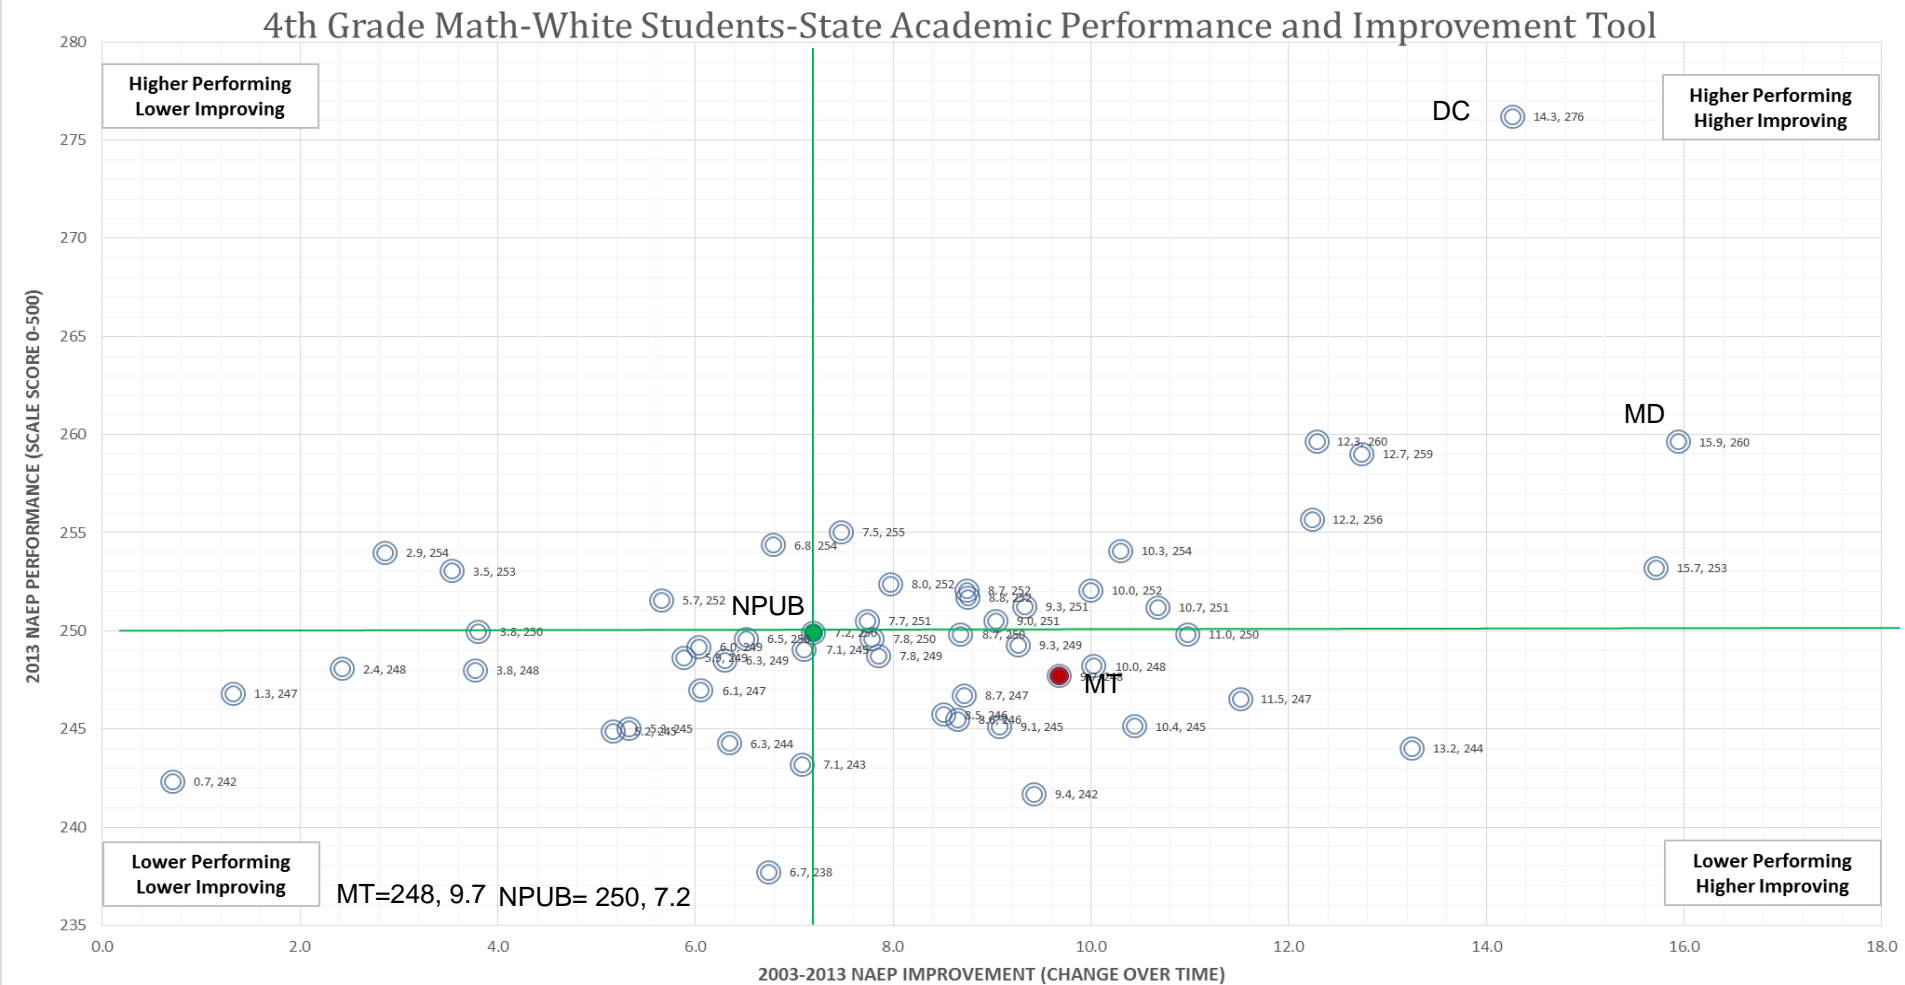

- Montana's ranking are dependent on the rollup factor.
- **A closer look**
 - Montana's position in the state comparisons can be explained by our small populations of minority students.
 1. Minority students in the U.S., on average, score significantly lower on NAEP and state tests.
 2. Average scale scores are directly influenced by the magnitude of student scores; LARGER NUMBERS of LOWER SCORES result in LOWER AVERAGES.

2013 Mathematics, Grade 8 demographics:

White	Black	Hispanic	Asian	Ai/An	Nh/OPI	Two or more
Montana- 80%	Montana- 1.0%	Montana-4.0%	Montana-1.0%	Montana- 12%	Montana- #	Montana- 2%
NPUB - 53%	NPUB - 15%	NPUB - 23%	NPUB - 5%	NPUB - 1%	NPUB - #	NPUB - 2%

WHAT DOES THE PICTURE LOOK LIKE WHEN STUDENT GROUPS ARE CONSIDERED?

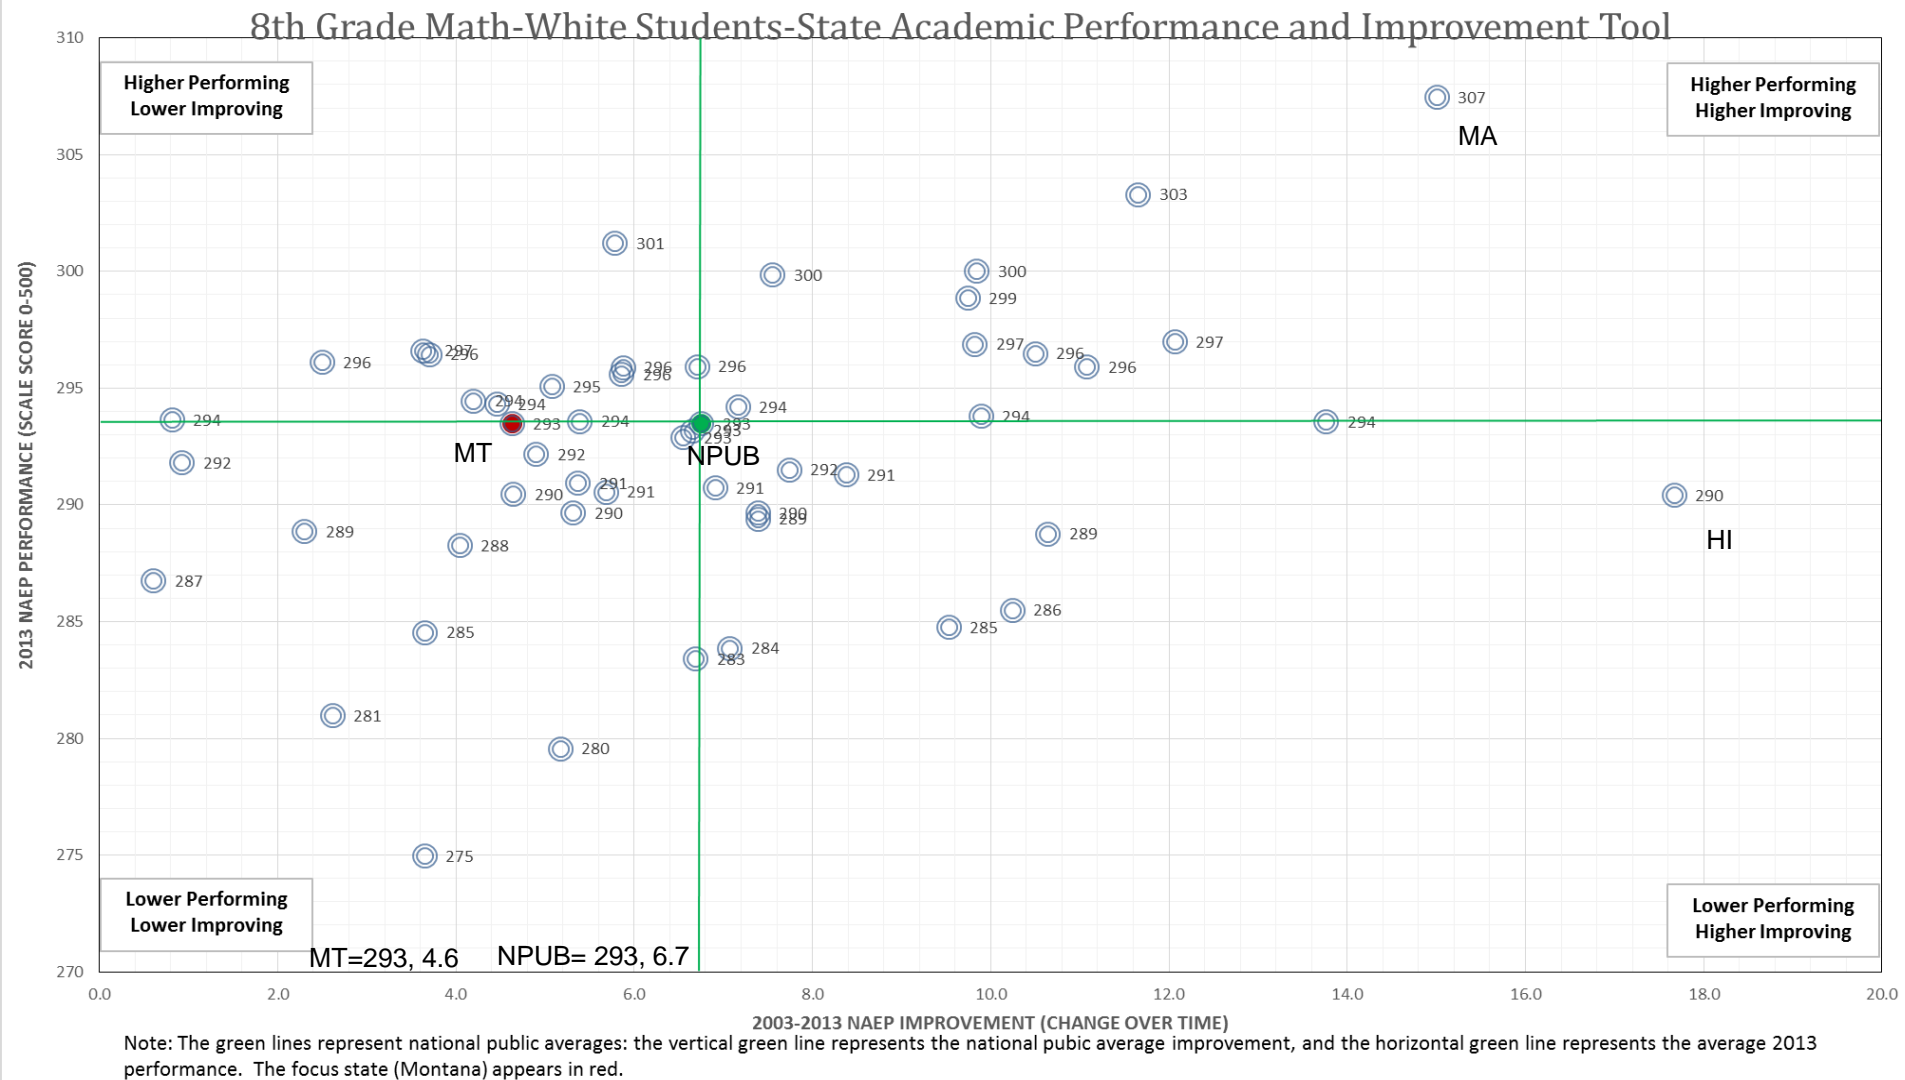

What is the data pattern?

Note: The green lines represent national public averages: the vertical green line represents the national public average improvement, and the horizontal green line represents the average 2013 performance. The focus state (Montana) appears in red.

Explore the results of the NAEP Trial Urban District Assessments (TUDA).

Question 3. Use measuring cups to describe a fraction.
A recipe requires $1\frac{1}{3}$ cups of sugar. Which of the following ways describe how the measuring cups shown can be used to measure $1\frac{1}{3}$ cups of sugar accurately?

$\frac{1}{4}$ Cup

$\frac{1}{3}$ Cup

$\frac{1}{2}$ Cup

- a. Use the $\frac{1}{4}$ cup three times
- b. Use the $\frac{1}{3}$ cup three times
- c. Use the $\frac{1}{3}$ cup twice and the $\frac{1}{4}$ cup once
- d. Use the $\frac{1}{4}$ cup twice and the $\frac{1}{2}$ cup once
- e. Use the $\frac{1}{4}$ cup once, the $\frac{1}{3}$ cup once, and the $\frac{1}{2}$ cup once

NDE

Do you have questions about what the nation's students know and can do?

With the **NAEP Data Explorer (NDE)** you can create statistical tables, charts, and maps to help you find answers. Explore the results of decades of assessment of students' academic performance, as well as information about factors that may be related to their learning.

For help using NDE, [view the tutorial](#), visit the [Quick Reference Guide](#) (609K [PDF](#)) or use the [NDE help](#) button available at the top of every page.

System Requirements:

- Target screen resolution is 1024x768.
- Internet Explorer 7 or Higher.
- Firefox 3.0 or higher.
- Google Chrome or Safari.
- Enable JavaScript and pop-ups in your browser.
- Adobe Flash Player 9.0.115 or higher, ([download](#)).

Accessible version: ☐ ON ☒ OFF

MAIN NDE

The Data Explorer for [Main NAEP](#) provides national and state results in 10 subject areas, including mathematics, reading, writing, and science. Results have been produced for the nation and participating states and other jurisdictions since 1990, and for selected urban districts (on a trial basis) since 2002.

LTT NDE

The Data Explorer for [Long-Term Trend](#) provides national mathematics and reading results dating from the 1970s.

HSTS NDE

The Data Explorer for the [High School Transcript Study](#) provides data such as course-taking and grade point average for students who graduated high school in 1990, 2000, 2005, and 2009. For 2005 and 2009 graduates, these data are also linked to NAEP grade 12 mathematics and science results.

NIES NDE

The Data Explorer for the [National Indian Education Study](#) provides NAEP grade 4 and 8 results from the mathematics and reading assessments for American Indian and Alaska Native students since 2005. Results are also available for a special survey that explored the educational experiences of the participating students, their teachers, and their schools. Read more about the NIES survey [here](#).

NOTE: The [1997 Arts Assessment](#) data are only available in PDF format.

2013 NAEP and Beyond

1. Go To: <http://nces.ed.gov/nationsreportcard/naepdata/>

After you agree to the terms of Data Usage you will be directed to this screen

The screenshot displays the NAEP Data Explorer web application. At the top, the NAEP logo is on the left, and the title 'NAEP Data Explorer' is in the center. Below the title are navigation links: 'Analyze Data', 'Sample Questions', 'State Comparisons', 'State Profiles', and 'District Profiles'. A progress bar below these links shows four steps: '1. Select Criteria' (active), '2. Select Variables', '3. Edit Reports', and '4. Build Reports'. The main content area is titled 'STEP 1: Select criteria from each drop-down menu to begin. Additional options related to your selections will appear. Then select measures, jurisdictions, and years based on available data.' It features two dropdown menus labeled 'Subject:' and 'Grade:'. To the right of these is a 'Reset' button and an 'NDE Help' button. At the bottom of the main area is a '2. Select Variables' button. The footer contains three links: 'About NAEP Data Explorer', 'Important Legal Information', and 'Accessible Version'.

1. Go To:

Questions Tool >

Search, sort, and print sample NAEP questions.

NAEP Questions Tool

[Tutorial >](#)

Search for Questions

To begin your search, decide which assessment to explore (main or long-term trend) and then select a subject. On the next screen, you will be able to refine your search results and use My Workspace to assemble and print questions, student responses, scoring guides, and performance data from NAEP assessments. [Find out more about NAEP sample questions](#), and [view the copyright policy](#).
